

Dear HR Manager:

I'm very interested in the role advertised.

I've been a developer for over 10 years and have extensive experience in the e-learning sector.

In the last year have focusing on Angular.js and Hybrid mobile development. I've successfully built web applications for McDonalds's and PTASocial, using Firebase and PlayFramework respectively. Also, I have recently launched an educational game on iTunes.

Find attached CV and explore my active Github account at: [github/russellf9](https://github.com/russellf9).

Pertinent examples include:

- A hybrid app using Ionic: [magic-squares-mobile](#)
- Ionic app using WebRTC: [f9-ionic-webrtc](#)
- "Scheduling" app using aAngular and firebase: [schedule-tool](#)

(I've a live version at: [project](#) )

I look forward to hearing from you.

Best Regards,

Russell Wenban
